

# Bill Gallen

## Summer Workshop August 3-6

2011

This workshop will encompass both *studio and location* painting.

The workshop will begin with studio work and will focus on the fundamentals of design, drawing and the optics of paint. Color and color mixing will be discussed and the science of proper palette management will be emphasized. The discipline of formatted preparatory sketches will be demonstrated and practiced.

The location work will take place on days two and three at a nearby historical park (Las Golindrinas), featuring period structures and a wide variety of simple subject matter.

The final day will be taken up with individual and group critique and an open house so that participants can share experiences and information.

Tuition: \$375.00  
Class Size Limited to 12
